EXPERIENCE

Software Developer Intern

May 2025 – Aug 2025

DataVinci Analytics Agency | Python, Next.js, TypeScript, PostgreSQL, REST APIs

Remote

- Built **5+ customer-facing features** for **Grippi.io** (AI Marketing SaaS) including multi-channel campaign analytics and automated report generation serving **500+ active users**.
- Reduced average dashboard load time from **3.2s to 1.9s (40% faster)** by redesigning SQL join strategies and adding composite indexes on high-cardinality columns.
- Built interactive analytics dashboards in **Next.js/TypeScript** with real-time trend visualization and custom date filtering, driving a **35% increase in daily active users**.
- Designed and shipped **RESTful APIs** for data ingestion and reporting; wrote **50+ unit tests** using **pytest** and contributed to code reviews in bi-weekly Agile sprints.

Summer Research Intern

Jun 2023 – Jul 2023

MITS-DU

Gwalior, India

- Built and benchmarked **ML models** for predictive analysis on real-world datasets under **Dr. Arun Kumar Rana (AI Dept.)**; applied hyperparameter tuning to improve model accuracy.

Visual Content Lead

Aug 2023 – Dec 2024

Google Developers Group, GeeksForGeeks, IETE

MITS-DU

- Led execution of **5+ tech events** (hackathons, workshops) for **1,000+ students**; directed digital branding resulting in **6× growth** in technical engagement.

PROJECTS

IndiaQuant MCP Server | *Node.js, MCP Protocol, SQLite, Yahoo Finance, NewsAPI*

- Built a **production-grade MCP server** with **10 AI-integrated tools** for real-time stock data and trading signals with **<500ms latency**; designed and documented full API specs.
- Implemented a **virtual trading engine** with P&L tracking, risk management, and a custom **Black-Scholes options pricer** with Greeks (Delta, Gamma, Theta, Vega, Rho).
- Designed **LLM-based prompt pipelines** for financial signal generation via agentic AI tools, improving response relevance and consistency.

Eventra – Event Ticketing SaaS | *Next.js, Convex, Clerk, Stripe*

- Built a full-stack **SaaS ticketing platform** with real-time queue management and mobile-responsive UI using **Convex** for live state synchronization.
- Integrated **Clerk** (auth) and **Stripe** (payments) via microservice APIs with event-driven architecture for consistent ticket state across concurrent users.

LinkedIn Automation Pipeline | *Go, Rod, SQLite, Chrome DevTools Protocol*

- Engineered a **modular 3-phase automation pipeline** in **Go** with SQLite-backed state and exponential backoff, achieving **~70% recovery** from transient failures.
- Implemented **human-like interaction patterns** — Bézier mouse movement, typo simulation, business-hour scheduling — to reduce detection risk.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL, C++

Frontend: React.js, Next.js, Redux, TailwindCSS, Material UI, HTML, CSS

Backend & APIs: Node.js, Express.js, REST APIs, GraphQL, Microservices, JWT, Agile/Scrum

Databases: PostgreSQL, MySQL, SQLite, MongoDB, SQL optimization, Indexing, Schema Design

Tools & Automation: Git, GitHub, AI tools, N8N workflow automation, Payment Integration, Third-Party API integrations

Cloud & DevOps: AWS (basics), Docker, CI/CD, Railway

Testing: pytest, Unit Testing, API Testing (Postman), Structured Logging, Monitoring Basics

Problem Solving: 200+ DSA problems solved on LeetCode & GeeksForGeeks

EDUCATION

Madhav Institute of Technology and Science

Gwalior, MP

B.Tech in Information Technology

Nov 2022 – May 2026

- **CGPA: 8.21/10** (Highest SGPA: 8.75)
- **Relevant Coursework:** Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, System Design, OOP
